# How to upgrade G640's code?

1. Please install the latest G640's driver until complete then open tablet setting and make sure you can test pen pressure on it.
2. If yes, please save "**Star G640….zip**" then extract it.
3. Open the folder then run "**UgeeBootLoader.exe**" then click "**OneKeyUpdate**" button.

4. If you can see "**Burn success**", please click "**X**" button to exit.
